The institutions listed provide courses specific to the wine industry, such as viticulture, oenology and wine marketing. There are also many courses in non-technical areas such as financial and business management, industrial relations and law, which are integral parts of the grape and wine industry. The institutions listed offer some of these topics; for a complete listing of Australian Universities please refer to the Australian Qualifications Register: [www.aqf.edu.au/register.htm#university](http://www.aqf.edu.au/register.htm#university)

Many organisations are now licensed to deliver Viticulture Research to Practice® topics- which include water management for grapevine production; integrated pest management; spray application for viticulture; and grapevine nutrition. To view the organisations in each state, please visit the training providers section of the resources page of the Winetac website: [www.winetac.com.au](http://www.winetac.com.au)

The following National training packages provide various qualifications at AQF levels 4, 5 and 6. These courses are in non-technical areas, such as business and financial operations, information technology, training and assessment and hospitality. Although they are not specific to the grape and wine industry, these packages may still address your training and assessment requirements.

<b>Training Package</b>	<b>TP Code</b>	<b>Industry Training Advisory Body</b>
Amenity Horticulture	RTF03	Rural Training Council of Australia <a href="http://www.rtca.com.au">www.rtca.com.au</a> P (02) 6273 2514
